

CLIMATE ACTION VIRTUAL INTERNSHIPS

Program Overview

4-Week Experiential Learning Program Focused on Climate Action

This program is intentionally structured to develop climate knowledge and sustainability consulting skills. Students will be placed in teams of 2 students and assigned to companies in various industries to focus on a Climate Action Project specific to their assigned host company

Mentorship, support, and educational workshops from Pomegranate Global and Virtual Internships

All students will receive a range of mentorship and support to gain the most possible from the experience

Learn to take action on climate change

Boost employability: creative problem solving, teamwork, pitching and presentation skills

Understand the role of a sustainability consultant

Real experience helping businesses operate sustainably

Build global and professional networks

Program Inclusions

- Three skill and knowledge-building workshops
- Weekly mentoring sessions
- Dedicated Slack Workspace for students to work together
- Two career coaching sessions for each student
- Engaging online curriculum for employability skill development
- Certificate of completion and End-of-Program Report

"I just wanted to thank you for providing such an amazing, relevant and needed internship!"

"Our host company enjoyed our presentation and said it really 'opened their eyes' to climate change in general, but particularly in how even as a small business, they can have impact."
